- **Best Practices**

What Are Our Tax Services?

Individual & Business

Non-Profit Reporting

Planning

Trust & Estate

**Free
Consultation**

..... **SIMPLIFIED THE**
NMS WAY.

■ **INDIVIDUAL & BUSINESS**

Changes are made to federal, state and local tax laws each year. We work exclusively with our tax clients providing them with peace of mind knowing their return has been prepared accurately and in a timely manner. We meet with our clients, identify all available deductions and tax credits, then complete and file their return timely.

■ **NON-PROFIT REPORTING**

Almost all charitable nonprofits recognized as tax-exempt by the IRS are required to file an annual report. NMS assists in Federal and State filings of these reporting requirements in order to maintain the organization's tax-exempt status. Financial statements are often needed in addition to reporting the financial outcome of the organization's efforts.

■ **PLANNING**

Year End Tax Planning is necessary to take advantage of the ever-changing tax laws. NMS can help you develop a strategy and maximize your deductions, tax savings, and opportunities.

■ **FINANCIAL PLANNING**

NMS Wealth Management works with clients to identify and prioritize their financial goals while creating an individualized wealth plan for each client to best meet their needs. We can offer professional financial security advice to help you choose products that meet your current and future goals whether it be for education, social security, or retirement.

■ **TRUST & ESTATE**

Estates and trusts must file Federal and State income tax returns, but with some important differences. NMS has a dedicated team experienced in the available elections, distribution rules, and deadline filings that are essential in the administration of estates and trusts.
